

REMARKS

Applicant respectfully requests entry of the above amendments (claims and specification) for the purpose of bringing the current application into better condition for examination and for allowance. The amendments to the Claims are made for the purpose of more clearly defining the intended invention of the current application; the amendments to the Specification made for clarification and correction of misleading errors and to more fully comply with 35 U.S.C. 112, first paragraph.

According to Applicant's calculations, there should not be any additional fees incurred for the addition of new claims. The four new claims are all dependent claims and are therefore within the 20 claim allowance provided under the filing of a new application.

The amendments, the arguments and explanations presented herein, are all intended to place the current application in a better form for the determination of patentability and for allowance. In the event there are any questions, please contact either the Assignee representative, Cindee Ewell, at 713-789-0070, as designated on the attached Statement under 37 CFR 3.73(b), or the Attorney for Applicant at the address and telephone number as listed below. In the event of any miscalculations for fees, the Commissioner is authorized to deduct/refund any amounts necessary from **Deposit Account No: 50-3748 (CRYA,025/cip)**.

Respectfully submitted,

Malcolm Skolnick
